

Arjun Mehta

Bengaluru, India | arjun.mehta.dev@email.com | +91-98765-43210 | github.com/arjunmehta

Summary

Backend Software Engineer with 3 years of experience building scalable REST APIs and cloud-native services using Python and AWS. Strong background in relational databases, containerized deployments, and collaborative Git workflows.

Technical Skills

Languages	Python, JavaScript, SQL
Frameworks	Django, Flask, Node.js (basic)
Databases	PostgreSQL, MySQL, Redis
Cloud & DevOps	AWS (EC2, S3, Lambda, RDS), Docker, Kubernetes, Jenkins
Tools	Git, GitHub Actions, Postman, Nginx

Work Experience

Backend Software Engineer

Cognivant Technologies, Bengaluru | June 2023 - Present

- Designed and developed RESTful APIs in Django serving 500K+ daily requests
- Optimized PostgreSQL queries, reducing average response time by 35%
- Deployed and monitored microservices on AWS EC2 and Lambda
- Containerized services using Docker and orchestrated via Kubernetes
- Implemented CI/CD pipelines using GitHub Actions, cutting deployment time by 40%
- Wrote unit and integration tests achieving 85% code coverage

Software Engineer (Backend)

Pixelforge Labs, Pune | July 2021 - May 2023

- Built and maintained Flask-based internal APIs for inventory management
- Migrated legacy MySQL schema to PostgreSQL with zero downtime
- Introduced Redis caching layer, reducing database load by 25%
- Participated in code reviews and mentored 2 junior developers
- Collaborated with frontend team using Git-based branching workflows

Projects

Task Scheduler API (Personal Project)

- Built a Django REST Framework API with JWT authentication and Celery task queues
- Deployed on AWS EC2 with Nginx reverse proxy and RDS PostgreSQL backend

Education

B.Tech in Computer Science and Engineering, Vellore Institute of Technology, 2021 | CGPA: 8.4/10

Certifications

- AWS Certified Solutions Architect - Associate
- Docker & Kubernetes Essentials, Coursera
